

Safer Choices II

Fidelity Log

Definitions:

Curriculum/Program: This evidence-based sexual health education curriculum is approved by DHS to meet Activity 3 of the CAPP Program.

Implementation: One full series of lessons/sessions for a curriculum. If the first lesson is taught on April 1 and the final lesson is taught on April 30, all lessons taught in that time period for the curriculum are included in that implementation. If a curriculum is taught to two separate groups of students, each group of students is receiving a separate implementation (2 implementations for the 2 groups).

Instructions:

Thank you very much for taking part in the CAPP Program Evaluation Fidelity Monitoring. The purpose of this fidelity monitoring is to support educators and tailor training.

Complete this workbook during the implementation you have selected for fidelity monitoring. If you have selected multiple implementations for fidelity monitoring, a separate workbook should be completed for each implementation. The workbook is divided into sections based on the lessons contained in the curriculum. Please identify information about the lesson in the box at the upper right-hand corner of the first page for each lesson, then identify whether you made any modifications to components of the lessons. Describe each modification.

In addition to the lesson sections, there is a final section (General Implementation Information) in which you will be asked additional questions about the implementation. You may want to take notes in the margins after each lesson to remind yourself of important points or events.

When you have completed the implementation and this workbook, please go to https://uni.co1.qualtrics.com/jfe/form/SV_51EPRNPEydnATX and enter the information into the online form.
